

JAY GUO

Jay Guo is the head of the Structured Securities Group, Fixed-income Quantitative Methodology Group, and OTC Derivatives Group at Interactive Data (IDCo). He is also initiating China Fixed-income evaluation business. Prior to joining IDCo, he was with Seer Capital and responsible for trading strategies and analytics for Mortgage-Backed (MBS) and Asset-Backed (ABS) securities. He was a Director at Credit Suisse for the Global Proprietary Trading Division and focused on mortgage credit products. Prior to assuming that role, he was a Director at Credit Suisse Structured Products Strategy & Research Group, which has been ranked as the All-America Research Team by Institutional Investor for four consecutive years starting from 2004. Jay joined Credit Suisse from Fannie Mae, where he was an economist in the Credit Policy and Finance Division. Jay has published a dozen academic research articles in leading finance and economics journals, such as the “Oxford Bulletin of Economics and Statistics”, “Journal of Futures Markets”, “Journal of Structured Finance”, and others. His views and research on real estate markets have been quoted by “The Wall Street Journal”, “Chicago Tribune”, “Market Watch”, and in Chinese, CCTV, 21st Century Business Herald, Guangzhou Daily etc. He serves as a member of the Board of Directors for the BNU Education Foundation and of the Board of Directors for the Global Chinese Real Estate Congress.
